

# Annual Summit on Drug Discovery Chemistry

Jan. 21, 2020 by BiopharmaTrend

The [Annual Summit on Drug Discovery Chemistry](#) primarily works on the theme “**Scientific Congress on pursuit of wisdom in Drug Discovery Chemistry**”. The main outcomes of the conference are sharing the insights, experiences and strategies of experts in drug discovery, discover the latest trends in drug chemistry, know the growing demand for drug discovery and pharmaceutical chemistry, find out how progress is being made in scientific formulation in practice and discover the tried and tested bio availability routes.

The event is for two days with 5 keynote forum, 15 sessions and 50 sub sessions along with concurrent workshop. Poster presentation, E-poster presentation and video presentation are also welcomed. There is also special place for exhibitors to exhibit their products among 100+researchers, CEOs, Associations and Industrialist etc. We hope that Drug Discovery 2020 is going to be one of the remarkable summits of the year 2020.

Date: 1 - 2 June 2020

Location: Vienna, Austria
