

2nd Annual Bispecifics in Discovery & Development Congress

Jan. 23, 2020 by BiopharmaTrend

Oxford Global's **2nd Annual Bispecifics in Discovery & Development Congress** will be attended by over 450 visionary leaders to network about the latest developments & participate in presentations from the areas of engineering, bioanalysis, biotherapeutics and bispecifics.

New for 2020 is the introduction of the kick-off sessions, providing an interactive experience for delegates through roundtable & panel discussions.

Key Speakers Include:

- Tristan Vaughan, Vice President, AstraZeneca
- John McCafferty, Chief Executive Officer, IONTAS Pharmaceuticals
- Surinder Kaur, Director, Genentech
- Kristin Brown, Director, GlaxoSmithKline
